## **DETAILED ACTION**

### ***Reasons for Allowance***

1. The following is an examiner's statement of reasons for allowance: The prior art of record US Patent 5,951,698 to Chen et al teaches detecting macro virus by obtaining comparison data that includes sets of instruction identifiers and determining whether the decoded macro includes a combination of suspect instructions in the decoded macro using the comparison data. US Patent 5,448,668 teaches protecting file by creating a test string, and in the detection stage the file to be screened is compared to each of the test strings of the protection file. US Patent 6,721,721 to Bates et al discloses displaying information related to result records found to be present a virus risk thereby eliminating suspect search results from a result set. The prior arts of record, however, fail to teach singly or in combination "a macro virus definition database being organized into a hierarchy based on the type of application to which the macro applies, wherein a parameter specifying a threshold to matches of commonly shared string constants the macro virus definition data files being indexed into the macro virus families categorized by a replication method employed, wherein the suspect string comprises part of the suspect file, the suspect file comprising a plurality of individual suspect strings: wherein the macro virus checker identifies the replication method common to the plurality of the individual suspect strings in the suspect file; wherein the macro virus checker identifies the macro virus family by which the common replication method is indexed;" as recited in the independent claims 1, 17, 34, and 39. Consequently claims 1, 17, 34, and 39 are allowable over the prior arts of record. Claims 12, 13, 15, 28, 29, 31, 33, 35, 38, 40, 43, and 44 are directly or indirectly dependent upon claims 1, 17, 34, and 39 and therefore are also allowable over the prior arts of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
